## ABOUT

As a recent graduate, I am a driven Java developer with a deep love for coding and a talent for solving complex problems. Through my academic projects, I have gained practical experience and honed my skills in Java programming.

## EDUCATION

**Rashtrakavi Ramdhari Singh Dinker College of Engineering**　　　　　**May 2016 – Sept 2020**
*Bachelors of Technology in Computer Science*　　　　　　　　　　　*Begusarai, India*

**Mahesh Bhagat Banwarilal Inter College**
*Intermediate - PCM*　　　　　　　　　　　　　　　　　　　　　*Muzaffarpur, India*

## INTERNSHIP

**Ducat The IT Training School** ⬈　　　　　　　　　　　　**June 2019 – Aug 2019**
*Intern for Web Site developer*　　　　　　　　　　　　　　　　　*Noida, India*

- Learned Web Development using HTML Java and CSS. Also mentored some students in their project like design of simple calculator.
- As of my work, I designed one banking based application where the costumer can access to create an account, deposit/withdraw the cash from his account and also to convert currency.

## PROJECTS

**Banking Management Systems** ⬈ | Java,HTML,CSS　　　　　　　　　**June 2019**

- Developed an Interface for Online internet banking where user can login/create his account and can see his transaction details. .

**Compressor Decompressor of File** ⬈ | JavaSwing　　　　　　　　　**June 2023**

- It is a web application where any jpg file can be compressed and decompressed without loss of data. There is two button at interface one for uploading file which is need to compress and other for decompress. **This application is build by using java swing framework and it is available at my github reprository**.
- Download

## TECHNICAL SKILLS

**Languages:** Java, C,SQL,HTML
**Developer Tools:** Netbeans
**Technologies/Frameworks:** Linux, GitHub

## EXTRACURRICULAR

∗ Playing and watching cricket. **Also won first prize in cricket tournament in my school days.**

## CERTIFICATIONS

- Java(From Ducat)
